BOOK SYNOPSIS

Forty studies that helped shape the field of Psychology Roger Hock's *Forty Studies* provides a glimpse of the science of psychology, unraveling the complexities of human nature. Hock summarizes some of the most influential studies in psychological history studies, and guides the reader through a thoughtful interpretation of the results and why the study is considered so important. This book provides a more in-depth look and analyses that cannot be found by reading a textbook or research alone. Learning Goals Upon completing this book, readers will: Gain background knowledge of the complexities in the psychology field. Learn about detailed studies in an easy, understandable manner. Understand scientific research, through closer examination of major topics.
